

Hannah Hesam

UX/UI Designer

Summary

UX/UI designer with experience creating clear and intuitive digital experiences for complex and data-driven products. Skilled in wireframing, prototyping, interaction design, and usability-focused problem solving across B2B and workflow-based platforms. Passionate about simplifying complex systems through thoughtful design and collaborative teamwork.

Work Experiences

Product designer | Morphotect | May 2024 – Present | Toronto, Canada

- Created wireframes, prototypes, and high-fidelity interfaces for complex digital workflows
- Collaborated with product and development teams to support usability-focused design decisions
- Simplified data-heavy and multi-step experiences into clearer user flows
- Contributed to design consistency through reusable UI patterns and structured layouts
- Supported iterative improvements based on product goals and user needs

Product Designer | Rismun | Mar 2023 – Feb 2024

- Contributed to UX/UI solutions for digital products by translating business and user needs into structured interfaces
- Improved interaction flows and supported usability-focused design improvements
- Collaborated with cross-functional teams to maintain consistency across product experiences
- Supported user research and usability testing to inform product decisions
- Applied accessibility and visual hierarchy principles to improve interface clarity

UI Designer | Lambton College | Apr 2022 – Mar 2023 | Toronto, Canada

- Designed structured interfaces and dashboards for research-driven applications
- Simplified complex information into intuitive and easy-to-navigate layouts
- Supported usability improvements through interaction-focused design decisions
- Collaborated with teams to align interface design with user and project needs
- Focused on clarity, consistency, and responsive UI behavior across workflows
