

Hanieh Hesam

Summary

UX/UI designer with experience creating clear and intuitive digital experiences for complex and data-driven products. Skilled in wireframing, prototyping, interaction design, and usability-focused problem solving across B2B and workflow-based platforms. Passionate about simplifying complex systems through thoughtful design and collaborative teamwork.

Work Experiences

Product designer | Morphotect | May 2024 – Present | Toronto, Canada

- Designed workflows, dashboards, and interfaces for an AI-powered people navigation platform that helps visualize movement patterns and operational activities in public environments.
- Translated complex operational and simulation data into intuitive user experiences, making information easier to understand and act upon.
- Created wireframes, interactive prototypes, and high-fidelity designs to support planning, monitoring, reporting, and maintenance workflows.
- Partnered with product managers and engineers to define requirements, validate solutions, and improve usability throughout the product lifecycle.
- Contributed to reusable UI patterns and design system improvements, helping maintain consistency across multiple product features.
- Applied user-centered design principles to simplify multi-step workflows and improve task efficiency for end users.

Product Designer | Rismun | Mar 2023 – Feb 2024

- Designed user interfaces and interaction flows for digital products by balancing business goals with user needs.
- Improved navigation and task flows to create more intuitive experiences and reduce friction across key user journeys.
- Worked closely with cross-functional teams to ensure design consistency and alignment throughout product development.
- Participated in user research and usability testing activities, translating findings into actionable design improvements.
- Applied accessibility, visual hierarchy, and information architecture principles to improve clarity and usability.

UI Designer | Lambton College | Apr 2022 – Mar 2023 | Toronto, Canada

- Designed dashboards and interfaces for research-focused applications, transforming complex information into structured and accessible experiences.
- Created layouts and visual solutions that improved content organization and supported user decision-making.
- Collaborated with project teams to align design solutions with research objectives and user requirements.
- Contributed to usability improvements through interaction design, responsive layouts, and iterative feedback cycles.
- Maintained consistency across screens while supporting responsive behavior across multiple device sizes.

Core Strengths

- Designing intuitive experiences for complex and data-driven products
- Simplifying workflows through user-centered design
- Wireframing, prototyping, and interaction design
- Building scalable design systems and reusable components
- User research and usability testing
- Cross-functional collaboration with product and engineering teams
- Information architecture and user flow optimization
- Accessibility and responsive design best practices

Education

- York University
Certificate _ UX Design
2022 | Toronto, Canada
- Politecnico di Milano
Master's Degree _
Architecture
2014 – 2016 | Italy
- Politecnico di Milano
Bachelor's Degree _
Architecture
2011 – 2014 | Italy

Skills

- UX/UI Design
- Interaction Design
- Wireframing
- Prototyping
- Design Systems
- User Flows
- Responsive Design
- Data Visualization
- User Research
- Usability Testing
- Problem Solving
- Cross-Functional Collaboration
- Stakeholder Communication
